New Regime Wants To Get In League At Once And To Save Kaiser If They Can.

(By Associated Press)
Berlin, Friday, June 20—Mathias Erzberger, mentioned as the probable head of the new German peace delegation is reported to have sent a note to Clemenceau as president of the peace conference asking whether the allies will agree to immediate admission of Germany to the League of Nations. He also desires to know if the powers will consent to limiting Germany's indemnity to a hundred billion gold marks and renounce all efforts to have the former Kaiser surrendered. The note does not say whether Germany will sign the peace treaty but the inference seems clear she would accept if these concessions are made.

Gompers Re-elected

James Duncan, of Seattle, and other so-called radical leaders remained seated when the delegates arose to cheer upon Gompers' election.

What is perhaps the most powerful motor truck ever exhibited in Madison county was shown here Saturday by the Richmond Motor Company. It is a Nash truck and was purchased by Kellogg & Company. It is one of the same type that the government purchased for use in the war buying \$37,000,000 worth of them. The tires are pneumatic, something unusual for such a size machine. They are 40x8 in the rear and 36x6 in front, and are said to be puncture proof. Kellogg sent up a load of groceries, etc., to Berea in the machine that weighed 3,800 pounds Friday.

ATTITUDE TOWARD MEXICO CHANGED

(By Associated Press)
Washington, June 21—A punitive expedition of adequate strength will be thrown across the border into Mexico the moment official word is received that Villa is making reprisals against Americans for the Juarez incident it is stated on positive authority here today. Recent developments on the border and within Mexico itself, have brought about a radical change in the attitude of the United States toward Mexico and substituted "watchful preparedness" for "watchful waiting." Any other contingency tending to bring the Mexican situation to a stage approaching the crisis of last Sunday would result in War Department orders for an American column to advance and occupy territory necessary to insure the safety of the expedition. Its further movement would depend upon developments.

Coming of "Woman"

Arousing Much Interest
Less than ten years ago, when the barefoot dancers were shocking audiences almost into insensibility (and, consequently filling every theatre in which they appeared), somebody prophesied "that the time will come when they will show mother Eve on the stage."

Well, that time is here. —She will be visible Monday and Tuesday at the Opera House. Again the films have accomplished what the speaking stage could not. The Mother of us all sprouts from Adam's rib in a cozy little cave, just built for two, apparently, and such doings they are in the garden of Eden as only a motion picture director could dream of.

Adam is a nice baboon, orang, presumably, but Eve—well, no wonder that the lions, panthers, leopards, and things hung around the entrance of the first bungalow.

One day she went out for a prance along the best lined palm avenue of Eden and flirted with a huge python neatly coiled from a tree and presumably anxious to converse with somebody. He dared her to pick an apple and make Adam eat some of it. Eve it seems, couldn't take a dare. He ate and thus began the eternal triangle of the drama. No more cozy stone bungalow. Zip Zowie! The camera records many things and when Adam and Eve stop running, Eden has become but memory and the unhappy pair find themselves wandering around a place that looks like the Grand Canyon. Maurice Tourneur who made this picture, calls it "Woman." Eve's antics in Eden episode in the

BUILDING BOOM ON IN RICHMOND

Many Homes To Be Built and Activity Is Growing In Sales of Lots

Richmond is on a building boom, and there can be no exact estimate made of the number of new houses that are in process of construction or for which plans have been drawn and contracts let. Desirable lots are very hard to find. Sales of houses and lots have been numerous. Shelby Hamilton bought this week through H. C. James, real estate dealer, the nice house and lot he has been living in on Broadway, from President T. J. Coates, for \$3,000. Ben Hurst bought three nice lots on Walnut street and it is understood he will erect a pretty home on them. He bought them through Mr. James from J. T. Thurman and paid close to \$700 for them. For J. A. Sullivan, Mr. James sold a lot at the corner of 5th and North streets to N. B. Turpin for about \$600. It is understood that Mr. Turpin will soon commence the building of an attractive home, on this lot.

BIG DAY AT VALLEY VIEW SUNDAY

Valley View, June 21. Evangelist DeGarmo preached last night on the subject: "Is God the father of sinners." The text was: "As many as receive him, gave he power to become sons of God, even to them that believe on his name," Jo. 1:12. In connection with this text he used many proof text. He proved that God is not the father of sinners; but that we become sons by adoption through faith in Christ, Gal. 4:4-7; Gal. 3:3-6. Christ was begotten of spirit and born of woman; we are begotten of the word and born of the spirit. If a man is a son of God before he is born again or becomes; what relation is he afterwards?

If men are already sons of God, why does God promise in the text to give them the right to become the sons of God. Jesus told the self-righteous Pharisees, "Ye are of your father the devil and the lust of your father ye will do." Jo. 8:44. Some people say that God is the father of everybody because he created them. According to such logic he is the father of the hog, dog and frog because he made them; how do you like your kindfolk? Also if you make a clock or a wagon you are the daddy of it because you made it; such logic is false. When men become children of God by adoption, through Christ, they are no more lost; "if children then heirs, heirs of God and joint heirs with Jesus Christ." Rom. 8:14-17. Evangelist DeGarmo is spending today with his family in Georgetown and singer Elsey, with his family in Lexington. Messrs. Stanifer, Cook, Taylor and Mrs. Taylor, of Richmond, and Dr. Robert Daugherty, of Nicholasville, were visitors last night.

There will be services at 11 a. m. at 3:30 p. m. and 8:30 p. m. Sunday. The afternoon service at 3:30 will be for men only. All men are urged to be present. Those from a distance can come in cars, bring lunch and dine on the banks of the Kentucky river and attend all three services. Sunday is expected to be the greatest day this town has ever seen.

Perishing Speed Tears At Sight

Of Wounded Soldiers

Teams rolled down the cheeks of Gen. Pershing, while visiting wounded officers and men aboard the hospital ship Mercy at Bordeaux, February 27, according to the stories of the 31 soldiers who arrived at New York on the ship from the French port.
Gen. Pershing made two visits to the ship with his staff, it is said, on the day of embarkation and on each occasion passed through lines of wounded men in the double tiers of cots on each side of the deck and comforted them. Once he stopped at the cot of a wounded marine who had lost a leg. He shook the soldier's hands and in a tone of pride and sympathy declared: "You boys are wonderful fighters."

Later he came across a young soldier in the surgical ward who was badly crippled. The General with fatherly solicitude for his welfare remarked: "Boy, you are a real man!" Then addressing the others in the ward he said: "The tears came to his eyes, and the old fighter who had won fame in the Indian uprisings, the Spanish-American War, the Philippine Island insurrection and the great war extolled the valor of the new veterans."

"Nothing is too good for you," he commented as he bade the boys good-bye.

It SERVES—that's the peculiar thing about our service

Service!

THAT poor little word—everybody's using it. It's so underfed and overworked nowadays, it looks like a famine in India.

But we've plumped it up—here at our place—till it really stands for something big. With us, battery service actually means the service that serves.

The Eveready Storage Battery is guaranteed to give a year and a half of steady, ready, starting, lighting and lighting service.

And we're here to make that guarantee good.

The Goodrich More Mileage Message

Goodrich is making the burliest, sturdiest, most lasting tires the rubber industry has ever seen; and Goodrich knows it.

In every test of road-roughing to which tires can be put, Goodrich Tires have unfolded an endurance, an ability to take punishment, which has run into phenomenal mileage.

Confident in this knowledge and belief, Goodrich desires that all tire users share in the confidence of Goodrich, and the big mileage Goodrich Tires assure.

Therefore, Goodrich announced to present and future owners of its pneumatic tires—an adjustment basis of 3,500 miles for SAFETY TREADS, and 5,000 miles for SILVERTOWN CORDS, instead of the 3,500 and 5,000 miles respectively, heretofore in force.

Remember that a Goodrich adjustment is a fair one. Goodrich knows the mileage is in its tires, and more; and to make you realize you lose money in being without Goodrich Tires, the new Goodrich adjustment is proclaimed broadcast.

A vivid, fearless and uncompromising portrayal of the evil that women do in all walks of life. A story bold and startling of the woman of temptation—the woman who lives in a riot of pleasure—the unfaithful woman—the feeble and discontented woman, who always longs for something different—the woman of personal purity who adroitly escapes man to fall but escapes herself—the dangerous woman of vanity, and then the woman of noble and heroic character.

TOURNEUR'S
SCREEN
MASTERPIECE

MRS. LESLIE CARTER

SAYS:

"The public is not interested in good women."

"Be what as it may, it is conceded on all sides that Mr. Tourneur, the great master of stagecraft produced this marvelous photo drama possessed deep-seated convictions on the subject and was sufficient-ly courageous to put them into powerful dramatic form. After seeing 'Woman,' you, too, are sure to concede that he has been courageous."

BY LONG ODDS THE MOST UNIQUE AND THE MOST DARING AND UNUSUAL PICTURE IN THEATRICAL ANNALS

ARCHIE BELL IN THE CLEVELAND NEWS SAYS:

"Few Directors there are who make more beautiful pictures than Maurice Tourneur. We have seen that proved before. Now, in his production of 'Woman,' he proves it again."

"The film may be a trifle lengthy, but when you think of it, it has been talked about by some of our best people, and probably appeared to be a trifle skittish to her immediate neighbors. Mr. Tourneur is an artist and not a manufacturer of 'movies.'"

THE "MOTION PICTURE WORLD" SAYS:

"Woman is a remarkable contribution to the aesthetic movement in motion picture production. It is so entrancing to the eye and so beguiling to the thoughts and sentiments of the spectator, that it lures him into a state of dreamy forgetfulness of himself and the little world in which he has been living. It is one of the finest screen productions of the year."

He is a famous trotting horse and live stock breeder of Boyle county, and has many friends in this county. WEBER DRAWS PLANS FOR HANDSOME HOMES HERE

E. A. Weber, the well known architect of Cincinnati, was here Friday making contracts for a number of new homes for which he is making plans for Richmond residents. He has drawn plans for the home that F. H. Gordon will build in Burnamwood, and also that which Col. B. J. Clay will build at the corner of Aspen avenue and West Main. Mr. Weber came here from Frankfort where he closed a contract to draw the plans for the new Capital Hotel, which will be built at once by the Weitzel heirs. It has been several years since the old hotel burned down. It is understood that efforts will be made to have the new hotel completed by the time the next legislature meets in January, 1920. Mr. Weber is also the architect for the handsome garage which the Richmond Motor Company has under process of construction on the old McCreary lot on West Main street next to the postoffice.

LALLEY-LIGHT

THE BALL-BEARING ELECTRIC LIGHT PLANT

Lalley-Light furnishes two sources of light and power in the one plant.

The machine itself is one; the storage battery is the other. Light used direct from the generator is as steady and strong and brilliant as from the battery.

This is an advantage not usually found.

It is due to the fact that the patented Lalley-Light engine is especially designed and built to drive an electric generator.

It is worth a great deal to the man who must have light and power that are wholly reliable.

We will demonstrate Lalley-Light, free. Call for the book of owners' testimonials.
